

> **VIP Service at GAT Cologne**

› Service and discretion

Our VIP Service is available for guests booked on a scheduled flight and especially interesting if you would like to travel discrete.

We welcome you at the General Aviation Terminal and check in your baggage. Please relax in our vip lounge with a snack and beverages while you wait for departure (only with premium package). You proceed through security and luggage control in our terminal and we take you directly to your aircraft where you can board immediately. Long waiting times and standing in line for check-in and security checks as well as the search for a parking space at the main terminals will fall away.

The VIP Service can be booked at least 24 hours prior to departure. Please kindly provide us number and names of passengers, flight number, date of flight, destination, number of baggage to check-in, method of payment (advance payment, cash or via credit card). After positive answer from the airline we will confirm the service to you and welcome you at our terminal on the day of flight.
